## REPORT.

---

Our third annual report of the work at the Cemetery, and finance account of Treasurer, are respectfully submitted.

So far we have been at work against a strong tide. Our aim has been, to do such work necessary to insure, the sale of lots, and the amount sold, has been as large as the most sanguin expected, proving our work so far to have been in the right direction. A well was required by lot owners, as it was inconvenient to get water for use on the grounds. We have dug a well and placed a pump therein. A limited amount of work has been done on the grounds, and a few bounds granite posts set. We again call your attention, to care for your lots, and the necessity of marking your corners. We are glad to say that many owners have graded their lot in nice shape, and hope all others will do so as soon as the ground is in suitable condition. A majority of owners have set granite posts on their lot corners, serving them a three-fold purpose, establishing their bounds, protecting their property, and a guide for grading.

A gentleman called on us a short time ago asking the price of a lot, saying he had been told the price was one-hundred dollars, showing that misstatements are still made. To those that have not had occasion to inform themselves, the price so far has been twenty dollars per lot. Size of lot 16x20 feet.

In conclusion we wish to thank those that have assisted us by suggestions and courtesy, in the performance of our work.

THOMAS W. RAND, } Trustees  
CHARLES H. RAND, } of  
RICHARD L. LOCKE. } Central Cemetery.

Recording 25 deeds,	7 50
	— \$472 75
Cash on hand,	\$162 53

THOMAS W. RAND, Clerk of trustees.

## SCHOOL REPORT.

---

### TO THE CITIZENS OF RYE:

As our schools come to a close, we are reminded that another year's work has been recorded on time's great tablet. Its effects, either for good or bad, have been written with ink that cannot be erased, and will remain forever indelibly stamped upon the hearts and minds of all who have been associated in school work. Although our schools have hardly reached the ideal, committee and teachers have had but one object in view, and have desired but one result from their labors, that has been to do the best they could for the scholars under their care. How well this work has been done, you, fellow citizens, are to judge.

We would impress upon parents the need of visiting the schools, that they may see and judge for themselves the work that is being done, and not, as is too often the case, form an opinion in regard to the qualifications of our teachers and progress of our schools from the children. As a rule, children are not competent to judge of the merits or demerits of those who instruct them. Parents should see that their children attend regularly with instructions to obey the rules, and the efforts of teachers and officers must be seconded by home influence if we wish to reap the best results.

In three of our schools, namely, the Center, South, and West, the same teacher has had the care of the school for the entire year. This we believe to be an advantage to the schools.

When a teacher has learned the dispositions and abilities of her pupils then, usually, she is ready for her best work, and we would note as a result, steady advancement during the entire year.

In the East school, a change of teachers and methods each term have failed to give as good results. This Winter, the return of a former teacher with an understanding of the needs of her pupils, together with the hearty support and coöperation of parents has resulted in marked improvement in the school work.

At both the South and West schools, parents and friends have displayed their patriotism in subscribing for the purchase of an American flag and flag-staff for each of the two schools. The anniversary of the battle of Bunker Hill was chosen by the pupils of the South school as an appropriate day for their flag raising. The program prepared was enjoyed by many friends from all parts of the town, and the flag was raised by two of the youngest scholars amid the hearty cheers of those present.

The West school chose as the day for their flag raising, the anniversary of the Discovery of America. The exercises by these scholars did them credit and were very pleasing to the large number present.

A sufficient sum has been raised for the purchase of a flag and flag-staff for the East school, and we trust that on our Nation's next birthday "Old Glory" will wave over all our school-houses.

Memorial day was observed by the pupils of the Center school by interesting and appropriate exercises. We would recommend that this day be observed by all our schools in the future.

Realizing the growing interest manifested towards loyalty to our country's flag, and the observance of our national holidays,

we have desired to encourage all we could along this line by introducing "Good Citizenship," which is a series of charts giving a complete, progressive, elementary course of instruction in civil government. This names the officers of town, state, and nation, together with their duties, duration of term of service, salaries received etc. We believe that this most important feature of a complete education has been too long neglected. Every boy and girl in our "Granite State" should be more familiar with their own institutions. No boy should leave school ignorant of the laws, or indifferent to the welfare of the government, whose citizen he is to become, and whose places of trust and honor he is expected to fill.

In closing our report, it is with gratitude that we acknowledge the kindness and assistance rendered us, and our thanks are due those teachers and pupils who have cheerfully complied with our requests and labored to elevate and improve the schools.
